Delivered Date: 06/18/2012 10:06 AM PST
Subject: Re: EPA presentation at the next TPT

Well the score will not be released. Unless the site is proposed to the NPL, which does not automatically happen. Maybe I should just give an overview of the site assessment process again and the potential next steps.

Great..thank you Brandon.

I have changed the time of your presentation at the request of other subgroup members who cannot attend in the afternoon. You will now be presenting at 1:00pm for about 20-30 minutes.

The questions, I am sure, will be regarding the timeline of the distribution of the ranking score and if the risk communication subgroup (DEC) will have time to prepare before EPA releases the number to the general public.

Thanks Brandon...

I won't have a final report to distribute before the meeting next Tues. But I'm comfortable enough with the drafts to discuss the findings with the group. Unfortunately I can not go into the finer details of the score as we keep it confidential. But I can give a broad overview. It would be helpful for me if you can ask the group what they would like to discuss or any questions they would like answered.

I will call into this meeting.

Thank you Brandon!

Yes, Friday will be fine. I will put a placeholder in the draft agenda for you as I am scheduled to distribute the draft tomorrow!

Thanks very much for getting back to me so quickly!

Hi JoAnn

I just received the draft PA Report and HRS scoring memo from E&E this afternoon. I'll try to do my review of the documents this week and that will give me a better sense of if we can potentially have the documents final before the end of the June. Can I let you know on Friday if I can give a presentation or not?

Also I'll have to check on our travel funds to see if I can make a trip up to Fairbanks.

Subject: EPA presentation at the next TPT

Good afternoon Brandon! I hope this note finds you well!

I will be sending the draft agenda for our upcoming June 26th TPT meeting to the team today or tomorrow, and as I remember from our last conversation, EPA was close to finalizing the ranking on the

refinery site. Shall I add you to the agenda for an update to the team? If so, let me know if you have a preferred time.

It will be helpful for the team to know if the site will be ranked in the near future for several reasons, one of which is that the risk communication subgroup could use a bit of time to discuss communication points in order to answer any questions received from the public on the ranking.

Thanks very much Brandon!

FYI, this meeting is being held in Fairbanks, should you be considering an in-person presentation!

J
